TECHNOHULL SeaDNA999 is a best-selling high performance RIB for adventure seekers that will not compromise comfort. This sleek speedboat is available for twin outboards or stern drives and features all the advanced characteristics of the company's larger models (central digital management system and all automated features).

She offers several seating options and a spacious deck with a separate built-in nautical electric toilet. Her ergonomic features and top-notch performance make for an unhampered ride even in the harshest conditions. She can brave the elements and keep your spirit of adventure alive.
